Instructions for PDF Embedder Free version
Embedding a PDF
Inserting a PDF is as easy as uploading an image into a WordPress page. In your page/post editing screen, click 'Add Media'. Drag and drop your PDF anywhere into the media library and then click 'Insert into post'.

You should see a 'shortcode' like this:

[pdf-embedder url="https://mysite.com/wp-content/uploads/2015/01/Plan-Summary.pdf"]

You can also embed the PDF by manually typing in the shortcode with the address of the file you want to embed.
